What hazard have you identified? What are the risks from it?	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
A hazard is something that may cause harm or damage. The risk is the harm that may occur from the hazard.	For example: young people, leaders, visitors	Controls are ways of making the activity safer by removing or reducing the risk from it. For example, you may use a different piece of equipment or you might change the way you do the activity.	Keep checking throughout the activity in case you need to change what you're doing or even stop the activity. This is a great place to add comments which will be used as part of the review.
Misuse of the bows and arrows	All present	Instructions are given and participants are quizzed to verify their understanding before the activity takes place. Activity supervised at all times by GNAS / Archery GB Qualified / Scout Activity Permit and experienced instructors to ensure that the rules are complied with.
